SYSTEM France

MOH Enable Approved Band 1

- > Anatomically shaped with raised lateral edges and a front to rear slope.
- > Will mould more precisely to the user and perform better over a longer time than a standard crosscut foam cushion.
- > The high quality cover is suitable for light incontinence and is washable. It also has a non slip base to improve positioning and prevent sliding.

SYSTEM Viscoflex + Plus

- > Moulded from viscoelastic foam with memory effect.
- > Anatomically shaped with raised lateral edges, a front to rear slope and ergonomic insert that ensures improved positioning.
- > The Viscoflex + Plus will mould precisely to the clients contours without bottoming out. Surface air vents enhance air circulation.

MOH Accessible Approved Band 1

NXT Biofit

Three layers of support

1. An upper visco elastic gel foam layer reduces heat buildup.
2. While a medium density visco foam layer provides improved immersion.
3. A contour cut, firmer HR foam base adds Pre-ischial support preventing sliding and provides pelvic support.

VICAIR

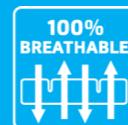

O2 Technology

Vicair SmartCell Technology is a breakthrough in skin protection and positioning for wheelchair cushions. This technology won the most prestigious award for inventors: The Grand Prix at the Salon des Inventions in Geneva.

- > SmartCells are tetrahedron shapes filled with air
- > Hundreds of them are inside a Vicair cushion
- > Cells can be added and removed for customisation

* The new generation of Vicair SmartCells come with a 5 Year warranty for the original user.

100% Breathable for optimal temperature and moisture regulation.

- > This feature reduces the risk of skin tissue deformation, and pressure injury.

100% Machine washable for optimal hygiene caused by sweat or incontinence.

- > Wash without removing the SmartCells.

Lower maintenance with no pump inflation required.

- > A Vicair cushion contains 100's of SmartCells in multiple compartments.
- > No daily monitoring of pressure or pump inflation needed.

Faster set-up and ready to use.

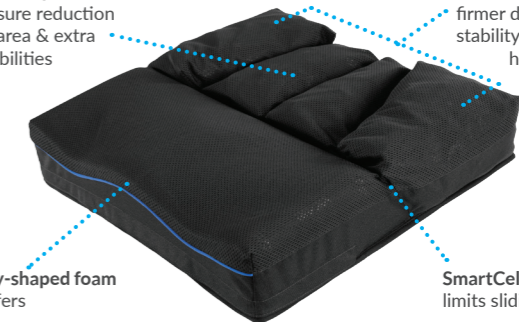

- > Only adjust cells if required.
- > Sit on it in less than a minute out of the box.

ACTIVE O2

FOR THE ACTIVE WHEELCHAIR USER

Ischial well - Two compartments for superior pressure reduction in the IT-coccyx area & extra positioning possibilities

Trochanter support firmer density to provide lateral stability | redistributes pressure to help create an ischial well

Ergonomically-shaped foam for easy transfers

SmartCell - Foam barrier limits sliding forward

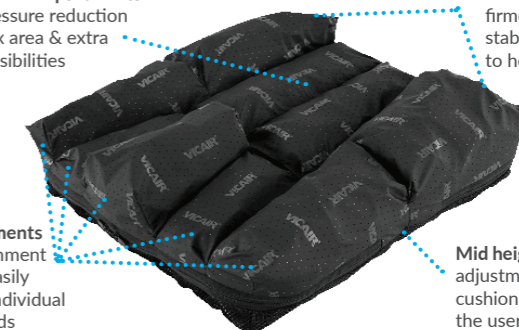

MOH Enable Approved Band 3

VECTOR O2

THE MOST STABLE AIR CUSHION FOR WHEELCHAIR USERS

Ischial well - Two compartments for superior pressure reduction in the IT-coccyx area & extra positioning possibilities

Trochanter support firmer density to provide lateral stability | redistributes pressure to help create an ischial well

Front compartments provide leg alignment and stability | easily adjustable for individual positioning needs

Mid height zip closure for easy adjustment when client is seated | cushion keeps its shape, enhancing the user's skin protection

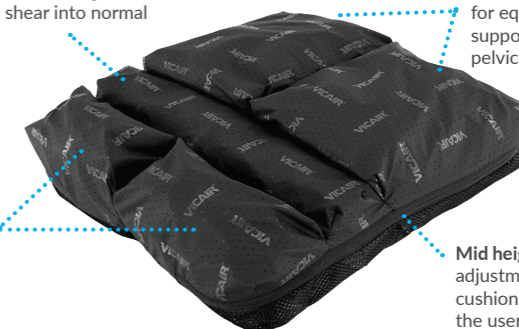

MOH Enable Approved Band 3

ADJUSTER O2

THE OPTIMAL CUSHION FOR WHEELCHAIR USERS WITH BODY ASYMMETRY

Pre-ischial bar limits sliding forward | converts shear into normal forces

Follows the body's contours for equal pressure distribution | support IT-coccyx area | managing pelvic asymmetry

Thigh support

Mid height zip closure for easy adjustment when client is seated | cushion keeps its shape, enhancing the user's skin protection

MOH Enable Approved Band 3

VICAIR

Specialty Cushions

Centre Relief

Offloading pressure in the high risk area

- > For completely offloading of the rectal area.
- > Adjustable non-contact area.
- > Stable positioning.

AllRounder O2

Not all activities require or allow the use of a wheelchair. In these situations the activity cushion Vicair AllRounder with O2 Technology, keeps you comfortable and helps to protect your skin.

- > Easily buckled onto your body
- > Water Resistant; Doesn't absorb water
- > The entire AllRounder O2 is machine washable

VICAIR

O2 Range Covers

O2 Top cover

Breathable outer layer, covers only the top part of the cushion, similar to a cap. Offering optimal ventilation and comfort. code: XVOCVsize/TP/size

Comfair cover

Breathable stretch fabric for air transmission and heat dissipation also reducing pressure on bony prominences. code: XVCCsize/size

Incotec cover

A fluid resistant cover made out of elastic material. Extremely usable in all situations (institutional and home use) where incontinence and hygiene is an issue. code: XVCIsize/size
