

Vela Independence Chair versus Office Chair

What are the benefits?

Office Chair

Adjustable

In general in seat height & angle, and backrest angle.

Armrests

Sometimes height adjustable

Castors

5 swivel castors, suitable for smooth surfaces only

Vela Tango - Independence Chair

Kitchen Activities - Dinner Time - Cleaning & Laundry - Personal Care - Transfer to and from bed

Improved safety for transfers

- 1 Brake LH or RH.
- 2 Non rotation of frame.
- 3 Self locking armrest design.

Also larger screw knobs for easier adjustment.

Walkable for independence

- 4 Four versus five castors provide more space for the feet.
- 5 The large 100mm castors with internal post bearings offer less friction and make it easier to walk the chair
- 6 Seat with front waterfall design to assist with walking and punting.

Function for activity

- 7 HiLo function electric (assist to stand) or gas operated. Also for improved reach.

Ergonomic

Comfort & prevention of tiredness.

- 8 The seat depth can be adjusted
- 9 The armrests can be adjusted in width and up or down in height, also flush to seat for transfers.
- 10 The backrest can be adjusted to provide lumbar, spinal and thoracic support.
- 11 Optional flip-up footrest.
