

Designed with the latest in technical innovation, our feature-rich products deliver healthcare professionals a complete range of alternating pressure mattress solutions to suit long term and acute care environments.

- Advanced featured surface for high risk patients
- Optimal patient comfort and safety
- Easy set-up and automated therapy
- Comprehensive error and service indicators
- Cost effective solution

AutoCair

Automatic weight sensing technology that delivers fail safe patient comfort levels. No more concerns over correct pressure level settings. Manual adjustments can still be made.

Cyclic

Quicker Release CPR access

Easier quick twist mechanism located at the head of the mattress. Makes it easier to rapidly deflate the mattress for emergency CPR requirements.

Quick Twist

Fowler Boost

Adjusts mattress pressure to provide increased support under the sacral area when backrest is raised.

Manual

SafetyCair

The ultimate protection from 'bottoming out', alternating air cells contain a lower 'safety cell' which remains fully inflated to provide greater surface stability and patient safety.

Air Cell

King Single

Wider surface for therapy and positioning.

SWL	40 - 200Kg
RISK	up to Very High risk
MODELS	Standard & King Single
