Client still active, able to stand and weight bear

Molift Raiser Pro

The ergonomic platform for a safe assisted sit-to-stand and small distance transfer.

- Multiple grip possibilities offer both the user and carer a comfortable grip.
- Double attachment points for accessories.
- One-hand grip adjustable leg support. Soft hygienic padding with lateral support and divided pads.
- Low step in height only 35 mm. With anti-slip feature on the stand surface.
- Curved for toilet

Molift Raiser Pro is stable and easy to manoeuvre. It is ideal in confined spaces and for short transfers, such as between beds, wheelchairs/shower chairs and in toilets.

- Very light at only 10.7kg
- Encourages natural standing with anterior support and carer assisted turning.

The small footplate makes it the perfect choice of transfer aid when transferring in tight spaces.

Product Code: XM16090204

Etac Turner PRO

Etac Turner PRO is a turn aid with a functional design that offers support for safe patient turning in standing.

- Many grip possibilities for both carer and user.
- The orange handle provides a strong, high contrasting colour which can help users with impaired vision or dementia.
- Soft and comfortable angled leg support, provides lateral support. Easy to adjust to whatever height is needed.
- Functional cast aluminum base plate with integrated anti-slip function is easy to turn on different flooring materials including carpets.

Encourages natural standing with anterior support and carer assisted turning.

The only adjustment necessary is the height of the leg support and the handle. The turner can then be performed safely whilst the carer and user maintain eye contact and communication.

The small footplate makes it the perfect choice of transfer aid when transferring in tight spaces.

Etac Turner PRO is easy to transport at only 7.5 kg.

Product Code: XM16090106

Quick Raiser 205

An ergonomic sit to stand hoist with outstanding lifting capacity

The Quick Raiser 205 mimics the natural pattern of sit to stand. It has an electrically adjustable leg base and an outstanding lifting capacity of 205 kg.

The unique wheel position, angled push bar and the extraordinary weight distribution of the base provides a small turning radius and easy manoeuvrability even in very narrow spaces.

- Electric
- Portable and easy to carry. Dissemble with two hard screws
- Central brake mechanism activated by one foot on either side.
- One-hand grip adjustable leg support.
- Soft hygienic padding with lateral support and divided pads.
- Double attachment points for accessories.
- Auditive feedback when activated
- Auditive feedback when activated

Very low 7.5cm leg height
Fits under most beds and chairs. While the electrically adjustable legs enables accessibility around toilets, lift-out chairs and wheelchairs
