XXL 200 & 250

200 & 250Kg
SWL

This Meyra XXL Electric Wheelchair won't let you down. It's built to move users up to 250kg, with a great stable and sturdy design, the XXL is tough. Thanks to the power tilt-in-space function, as well as the choice of powered separate swingaway powered or manual footrests, you can be more comfortable.

User weight up to 200 or 250Kg

With adjustable seatplate & armrest widths.

Rear-wheel drive

The rear-wheel drive configuration offers a stable drive, great for optimum traction.

Built tough with lots of options

Reinforced components for strength and stability, with a wide range of standard and power options.

LED lighting system

Safely lights your way with long-lasting LED head lights, included as standard.
