*versus other manufacturers MWD with power tilt & elevate function available in NZ

FASTER
15 kmph speed

SMOOTHER RIDE
Active suspension

SIT LOWER
Under a standard table

Get to go where I want to

Faster & Smoother

The RS is faster with a maximum speed of 15 kmph.

I'm in control

With the RS I have power elevate & tilt functions at my fingertips.

I can now more easily achieve my daily tasks with ease while I am out and about.

Now I can sit lower

The TA RS power function lowers the seat plate to only a minimum height of only 15".

Lower than any other power chair.

Yes, now I can sit under any standard table.

With more torque, power & range, I can achieve much more in my busy day
